Annual Per Capital Disposal

Employees

Total Number of Employees: 1288

Explain who was included in this number and how was this employee number calculated.

Included in the total number are Caltrans employees within the building and off-sites. The number of employees was provided by several sources, our Maintenance Department, Administration Department and Construction Department. All departments have clarified the number of employees in the building and their off-sites. We do have other agencies in the building as well as visitors. The other agencies are not factored into the reporting, they do their own reporting. Additional employees included are employees at off-site facilities.

Non-Employee Population

Total number of non-employee population: 500

Population Type: Visitors

How was this population number determined?

Visitors are included in this number. The number was calculated by our visitor log.

Disposal

Total amount disposed: 37,242.79 tons

Total transformation: 0.00

How was this disposal number determined?

In Construction, refuse that was diverted or transformed was concrete and asphalt. This is crushed up and is recycled back into the materials used in projects on the roads and highways. Plastic, paper, glass and other recycled materials picked up by the refuse companies, are recycled by the materials accordingly. Anything that cannot be recycled is then taken to the land fields. Refuse picked up from the homeless is usually not recycled due to contamination or hazardous materials. This can't be transformed.

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Annual Results

	<u>Employee Population</u>		<u>Non-Employee Population</u>	
	<u>Target</u>	<u>Annual</u>	<u>Target</u>	<u>Annual</u>
Per capita Disposal Rate (pounds/person/day):	361.60	158.44	1,325.90	408.14
Per Capita Transformation Rate:	72.30	72.30		
Calculated Disposal Rate (pounds/person/Day):	--	86.14		

Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

C&D waste and mixed debris included concrete, asphalt and mixed vegetation. Even though much of these materials are being diverted from the landfills; the process to capture this information for all the projects has been developed and monitored. This is due to the Solid Waste reports developed 5 years ago. Although most of the materials were diverted, the amounts in report and materials that could not be recycled, therefore are taken to the land fields. The waste from the state agencies which is picked up by a refuse company is added into the waste thrown away. Most of the materials are also recycled by the refuse company, thus leaving a small amount that goes directly to the land field. Also added into the report is a high amount of waste taken to the land fields from the effort to clean up our homeless sites. These sights are on the right of ways our freeways and highways. Unfortunately, this waste cannot be recycled due to contamination.

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

There are no difficulties or obstacles with Constructions' and Maintenance reporting's. Materials being disposed from our construction and maintenance project are being monitored. Implementation and awareness of recycling efforts from Construction and Maintenance has made recycling more successful.

Programs

Recycling

- Beverage containers
- Glass
- Plastics (#3-7)
- Cardboard
- Newspaper

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Office paper (white)
Office paper (mixed)
Confidential shredded paper
Copier/toner cartridges
Scrap metal
Wood waste
Tires
Construction materials/debris

We have recycling bins at the office buildings for paper, plastic and cardboard. At the Maintenance off site facilities we have different bins designated for metal, wood, rubber and plastics picked up from our freeways and highways. These bins are then picked up from various vendors to be recycled.

Material Exchange

None

None

Waste Prevention/Re-use

Paper forms reduction - online forms
Bulletin boards
Reusable boxes
Electronic document storage
Intranet
Reuse of office furniture, equipment & supplies
Reuse of packing materials
Double-sided copies
Email vs. paper memos

We have recycling bins in our building and our offsite facilities for paper and card board. We also recycle and have separate waste baskets in our break rooms for cans and plastic bottles. All the paper that is ordered for our district is recycled paper.

Green Procurement

Recycled Content Product (RCP) procurement policy
Environmentally Preferable Purchasing (EPP) procurement policy

When ordering paper for our district we order only recycled paper.

Training and Education

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Dedicated Recycling Staff (Existing or planned for 2017.)*
 Signage (signs, posters, including labels for recycling bins. Existing or planned for 2017.)*
 Employee training (Existing or planned for 2017)*
 Adequate number and condition of receptacles (Existing or planned for 2017.)*
 New employee package

When ordering supplies that the requirement states we have to order recycled products, our Procurement Office enforces the purchasing process. We do have signage and posters on all of our bulletin boards for recycling. Our bins and trash bins that are for recycling materials are well marked. In our new employees training orientation we mention our recycling bins and efforts to recycle anything we can.
